SKILL EDUCATION AND WELFARE ASSOCIATION (SEWA) Council of Skill and Vocational Studies is established under Central Govt. Act 21 of 1860 / State Govt. Act 29 of 1950 / Legislation of Sec 8 Act Of 2013, Govt of India and Also Associated with License no B-1205/mum/com/1000+/5/9419/ 2018 Approved by Ministry of External Affairs, Government of India for Overseas Employment.

SKILL EDUCATION AND WELFARE ASSOCIATION (SEWA) Council of Skill and Vocational Studies is a non-profit / self financed / private organisation with the vision to focus on establishing effective and efficient ecosystem for developing and imparting skills in the Indian Industry & Working Sector, through relevant content, curriculum, courses, information database, delivery systems, standardisation of the accreditation and certification process, to enhance the employability of the Indian workforce nationally and globally. Our Mission as an Autonomous & Voluntary Organisation is working for the development of literacy and creating awareness among the masses about Skill, Vocational, Science & Technological Education and striving for their upliftment in all spheres of life.

We impart skills & vocational based education programs, trainings and national / international employments to our students. We have also come up with short term vocational & skill training based certificate and diploma courses from SKILL EDUCATION AND WELFARE ASSOCIATION (SEWA) Council of Skill and Vocational Studies (A Non-Govt. Voluntary Skill Providing Institution) that is a Private Self Financed Institution, Established & Running Certificates, Diploma & Advance Diploma Courses for Jobs & Self Employment purposes. We Also Came in Existence with Higher Education University Degree Programs (B Voc, M Voc) With Many Specialization Recognition by University Grants Commission (UGC) Government of India

Over the past few years, SEWA has grown exponentially making its presence felt across the Twenty Eight states and Nine Union territories, training and certifying many youth by helping and making them employable, self-employable and empowered with Skill, Trade & Vocational Training Programs along with its respective Training Centres & Branches. SEWA has been formed for the common purpose of talent development for the Skill Based Private Sector and is dedicated to meet the demand for skilled workforce in the skill based work industry in India and abroad. SEWA ensures sector capacity building for availability of trained and skilled manpower across industry segments and organisation levels. SEWA is not in receipt of any grant-in-aid either from the Government or from any other Council Departments but it coordinates with all other skill based development & vocational training organisations across the country. The basic purpose of establishing SKILL EDUCATION AND WELFARE ASSOCIATION (SEWA) Council of Skill and Vocational Studies is to provide the masses with better life and make them self-reliant by encouraging Students and women in the remote areas by encouraging them with education and employment. It will be our priority to educate people by promoting technical education with Indian culture because the technical education plays an important role in the human resource development of the country by generating efficient mass power, increasing industrial production and improving the quality of life of the people. It will be our moral duty to honour the spirit of encouragement and excitement that will contribute to the field of education as well as technical education. It is our goal to develop education in the life of those who live in remote hilly areas by providing them technical education and the means of livelihood to connect with the mainstream of the country's development.

This is a small step to decide on your participation in Skilful India, but by making a meaningful effort with sincere and transparent thinking, we will continue to make every effort to make it a milestone. This will be a holistic approach to uplift the overall quality for skill based education in private sector, with the Levelling up of the Private skills based education and training sector standards over the next few years, SKILL EDUCATION AND WELFARE ASSOCIATION (SEWA) Council of Skill and Vocational Studies aims to work with Social Welfare/ Educational private organisations to promote the private skill based education and training in India. We welcome all education entrepreneurs, teachers and others to join us and spread this noble mission of education.

VISION & MISSION

VISION

Skill Education and Welfare Association (SEWA) Council of Skill and Vocational Studies holds a vision to focus on establishing effective and efficient ecosystem for developing and imparting skills in the Indian Industry & Working Sector, through relevant content, curriculum, courses, information database, delivery systems, standardisation of the accreditation and certification process, to enhance the employability of the Indian workforce nationally and globally. The then Union Finance Minister Shri P. Chidambaram had also once announced that "There is a compelling need to launch a world-class skill development programme in a mission mode that will address the challenge of imparting the skills required by a growing economy. As skill development is the uprising soul of the developing India.

MISSION

Skill Education and Welfare Association (SEWA) Council of Skill and Vocational Studies as an Autonomous & Voluntary Organisation is working for the development of literacy and creating awareness among the masses about Skill, Vocational, Science & Technological Education and striving for their upliftment in all spheres of life. It is also focused to upgrade the standards, curriculum and quality assurance as per international norms by involving necessary framework and measures. It also plans to involve private sectors along with public sectors to enhance the support and coordination in prioritising the initiative that will work as a catalyst in building a great market for bringing in funds for making things function smoothly and reach out to masses along with upgraded technologies.

PRESIDENT MESSAGE

In today's world, globalisation is rapidly increasing, bringing with it expanded personal mobility; access to knowledge across borders; increased demand for skill and vocational education, growing worldwide investment; and increased needs of continuing skill and vocational education. The twenty first century undoubtedly belongs to the men and women of strength and excellence in skilled and professional fields.

I staunchly believe that freedom of individual development is the basis of democracy. Intellectual progress demands the maintenance of spirit of free enquiry. The pursuit & practice of truth regardless of consequences should be only ambition. All education is expected to be liberal. Education, one of the human resource development strategy, is a powerful tool for peaceful social transformation and for overall development and prosperity of any nation. It should be free from shackles of ignorance, prejudice and unfounded belief. Skill and Vocational education is an important index of human development.

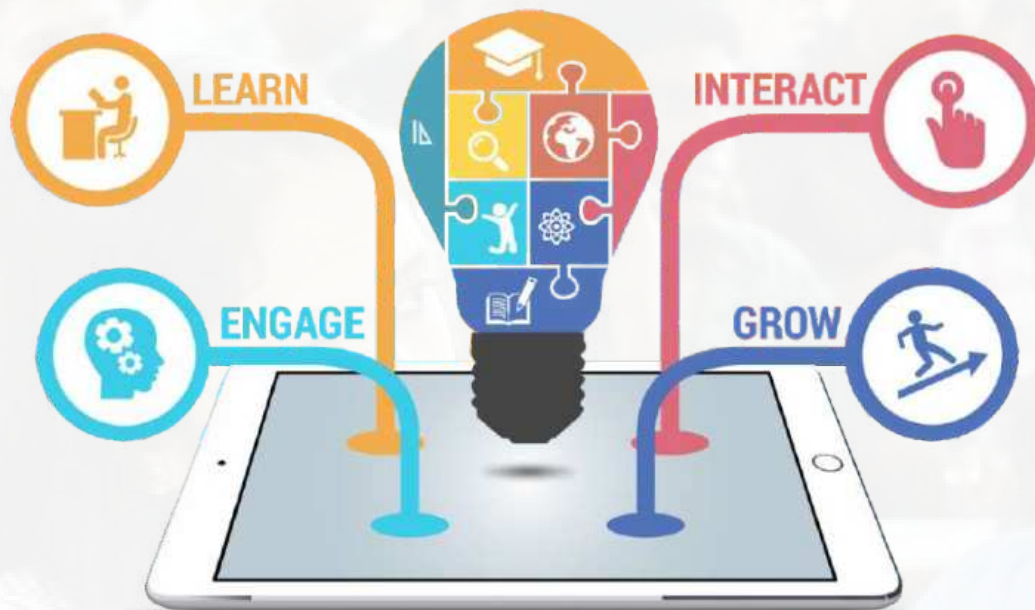

Skill and Vocational Education is indeed a vital tool for intellectual, cultural, aesthetic development and a means for achieving wider social aspirations. The responsibility in the context of changing scenario is not only confined to imparting education but also to forecast the future needs of economy. The National Knowledge Commission has also stressed that there is an urgent need for massive expansion in the field of skill and vocational education because the proportion of our population, in the relevant age group, that enters the world of education, is about 7% only, while in developed countries it is upto 85% and at the same time, it is important to raise quality of skill and vocational education. Keeping in view contemporary needs, also that skill and vocational education should be accessible to one and all. Education is the fundamental mechanism for social inclusion, growth through the creation of more opportunities.

We at SKILL EDUCATION AND WELFARE ASSOCIATION (SEWA) Council of skill and vocational studies are committed to achieve these many objectives by making it an example of excellence comparable to the best in the world. To make skill and vocational education accessible to poor people we are initiating novel schemes of scholarships to meritorious students and loan facilities.

We offers a unique academic environment of continuous influence and interaction considered essential for the enrichment of mind and the body with the maximum of speed and minimum of cost. Enthusiastic efforts of the students, dedication of the faculty and active co-operation of the parents is making our movement towards excellence and innovation smooth and speedy. We shall always endeavour to emerge as an excellent launching ground for success, helping students to reach the pinnacle of glory in the rapidly developing world. Our goal is to make our students global citizens on completion of their skill and vocational education capable of establishing themselves in any part of the world to lead a happy & prosperous life.

May God be with us in all our endeavours.

- Enrollment Verification
- Digital Document Management
- Earn While You Learn Program
- Dedicated Career Advisor
- Skill Building Program
- Online Examination Mode
- Lowest Fees Structure
- Internship Support
- Overseas Placement

SELF STUDY MODE

SELF STUDY MODE LEARNING

Self-studying is a learning method where students direct their own studying-outside the classroom and without direct supervision. Since students are able to take control of what (and how) they are learning, self-study can be a very valuable way for many students to learn. Self-study and traditional classroom learning can be used together to help your Student get the most out of his or her learning experience. Together, these methods help students learn and retain information better, helping boost comprehension, grades, and motivation.

THE IMPORTANCE OF SELF-STUDY

Self-studying is a great method students can use to enhance their learning experience, whether they are studying for a course or learning about a topic for fun. Using self-study, students are able to go beyond simply learning what their class textbooks and instructors teach them. By practising self-study, they are encouraged to further explore topics they are interested in, developing stronger study skills as a result. One of the major advantages of self-study is that students can take control over their own learning. And when students have control, they become even more interested in learning.

THE BENEFITS OF SELF-STUDY FOR STUDENTS

Self-study also helps build study skills your Student can use to explore new topics or tackle challenging schoolwork.

1. Students learn more effectively. Exploring a topic on his or her own encourages your Student to actively engage with the information. Self-studiers are able to think about topics more deeply and make connections between what they are learning. And when students are engaged (and excited) about what they are learning, they're able to remember it better.
2. Students discover more about the topics they're studying. Self-study is all about searching out new information on a topic your Student is interested in. Seeking out this information themselves gives students a chance to learn more about that topic (rather than just what they are taught in class).
3. It can boost students' self-esteem. As students do more self-study, many become more confident learners. They are able to see themselves as an independent person who is able to learn new things without anyone helping them. This can be a major motivation boost for students.
4. Students can learn at their own pace. Self-study allows students to take learning at their own pace, focussing on areas they are most interested in (or want to understand a bit better). This helps reduce feelings of frustration, anxiety, or boredom that students may struggle with in a classroom setting.
5. Encourages curiosity. Curiosity is one of the biggest (and often overlooked) pieces of motivating students to learn. When students aren't engaged with what they are learning, they absorb less of the information. They study to memorize rather than understand. Self-study allows students to choose something they are interested in and excited to learn about, leading to a more effective learning experience

That's good news for everyone!

ASP SCHEME

Skill Education And Welfare Association (SEWA) Council Of Skill And Vocational Studies ASP (Already Skilled Person) Scheme.

in india majorly there are many of skilled individuals but without qualification they are not recognized as professionals, having field experience of many years without certificates and diplomas they are not able to success
